http://online.barrons.com/report/top-financial-advisors/independent/2013

The National ranking of distinguished financial advisors was produced by Barron's after conducting extensive research, surveys, & interviews in addition to weighing factors such as assets under management, revenues generated for advisor's firms and overall quality of practices.

~ Financial Times 2013 / FT 400 "Top Financial Advisors" ~

Recognized as one of the Top Investment Management "Elite" within one of 32 qualifying states selected within the US, including Washington, DC / April 11, 2013 FT Special Report / Page 9, 2013

http://www.ft.com/intl/reports/top-financial-advisers-2013

The "FT 400" list is based in large part on data gathered from and verified by broker-dealer home offices, and, as identified by Financial Times, reflected each advisor's performance in six primary areas: assets under management, asset growth, compliance record, experience, credentials and accessibility.

~ Barron's 2012 / "Top 100 Independent Financial Advisors" ~

Among One Of (17) "New Members" Within Barron's Nations Top 100 Independent Financial Advisors... ranking Edward Geoffrey Sella 2nd within the State of Maryland. (The Dow Jones Business & Financial Weekly) Barron's / August 27, 2012 (pg S14)

http://online.barrons.com/report/top-financial-advisors/independent/2012

The National ranking by Barron's was made after conducting extensive research, surveys, & interviews in addition to weighing factors such as advisors' team assets under management, revenues generated and overall quality of services and regulatory records. Investment performance is not an explicit criterion because clients' investment goals vary widely. In many cases the objective is preservation of wealth, rather than market-trouncing returns.

**The rankings are based on assets under management, revenues generated for advisors' firm, quality of practices and other factors.*

***America's leading financial advisors, listed by states. The length of each state's listing is in proportion to the population, meaning more advisors are listed for the largest states. Factors included in the rankings: assets under management, revenues generated for the firm, regulatory records & quality of practices.*

****The rankings are based on data provided by over 4,000 of the nation's most productive advisors. Factors included in the rankings: assets under management, revenues produced for the firm, regulatory record, quality of practice, and philanthropic work. Institutional assets are given less weight in the scoring. Investment performance isn't an explicit component, because not all advisors have audited results and because performance figures often are influenced more by client's risk tolerance than by an advisor's investment-picking abilities.*

*****Awards qualifying by assets under management, revenues, the quality of their practices and regulatory records.*
